Who we are and what we do

As a consulting agency and program organizer we assist students of all age groups in the field of international education. We help those who want to learn a foreign language or participate in an exchange program, e.g. high school, college, homestay or internship. We represent a number of highly recognised language training centres, student exchange organisations and reputable colleges and schools all over the world. We believe that actually living in the country where the foreign language is spoken, is the most efficient way of learning it. Language holidays, educational tours and business travels are excellent opportunities not only to meet people abroad, but to learn and experience their culture and language.

As numerous organisations and training centers worldwide offer a vast variety of programs, it is not always easy to make the correct choice. With more than 20 years of experience in the field of international education and an academically trained staff, we assist you in the selection of a program tailor made for your specific needs. We provide students with registration and advisory services that guarantee a smooth start into any academic and language training program. Furthermore, all of our international partners meet our high educational and academic standards and professional goals.

The longer you stay abroad, the better you want to be prepared. Applicants for high school, college and au pair programs are carefully screened and interviewed by our staff in various locations in Germany. Academic, educational and business needs require experienced and highly professional support and guidance for our clients. We hope to meet these high expectations and offer our services with a friendly personal touch.

Barbara Rieder-Wiemeyer, Managing Director
